laughed my a-off, lol, would kill crocos again 10/10. Got to be one of the worst games on steam. SEEMS PRETTY cool NOT..... This game reminds me of a combination of PUBG and ORION: Prelude. This game tasks you with the challenging task of eliminating the challenging hordes of arguably overpowered enemies, ranging from giant spiders, Which are possibly the most terrifying thing I've ever seen, to Bears to hippos. They've got them all, and they all want you. One of the major selling points of this game is it's thrilling multiplayer experiences. Up to three friends can join your struggle in the multiplayer play. Bored of the PVE nature of the game? Turn it into a PVP! Kill all of your friends, and prove to them that you are the best.

11/10 Would not recommend.. Achievement Spam. Alligators, zebras, penguins, wolves, eagles, hippos, owls, heck... even bunnies and many other cute animals working TOGETHER to kill the player! Just aim everything that moves and go trigger-happy on this bizarrely fun experience.. Achievement spam trash. Red Wake Garbage :v. confusing and poorly made. As a achievement hunter I saw this game has tons of ez achievements and got it in a cheap bundle. Don't be me. Terrible game. Mainly because it is VERY repetitive. There is literally no choice but for u to farm your way through the game.

Great little shoot'em'up. No learning curve. Slight progression. Just choose your character, pick up a weapon, and start shooting the evil Animals.. You get what you paid for, 2.5K achievements at minimum price. If you're an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don't waste your money. This is not a game, it's just a way of distributing achievements.. Things you might ask yourself while playing this:

- Why are these animals attacking me? What made them furious?
- Why is there a penguin in the desert?
- Why do animals split in pieces like you've cut them perfectly?
- Why can I one hit kill a ♥♥♥♥ing bear or a puma but a rabbit can take 3-4 bullets?
- Why can't I headshot a giraffe, but only bodyshot.
- Why is the playermodel talking about having sexual intercourse with animals?

Questions over questions. Just stfu and play the game for the achievements. That's the only purpose.. Achievement simulator.
. Took me an hour and a half to kill 666 foxes in a survival mode type of gameplay to unlock all 666 achievements. There's 666 achievements because this game truly is HELL. The gameplay is terrible, probably created the environments in Microsoft Paint. Only reason to get this game is for a mind-numbing 666 achievements if you're into that. NEVER pay full price for this cancerous game, the \$10 price tag is appalling. I grabbed it in a bundle for a few cents, and I'm satisfied. I don't recommend unless you can get it for super cheap and care about achievements. Very similar to the publisher's other games. There's no nudity btw, that tag is misleading. Just gore and mind numbing killing of foxes. WTF. Impressive that one manages to publish an FPS without tension and incentive,

boring and tiring the Game is not funny and also not worth a cent.. this game is straight trash.. Yes, it's a garbage shooter and an obnoxious achievement spammer all rolled into one over-priced package. But on the plus side, there's something truly cathartic about blowing away a horde of murderous penguins.

Happy Feet is right.

Them toes better starts a tappin' when I starts a shootin'.

ANPA.US. Slaughter House Mode Unlocked:

Hey All

I just released a patch unlocking Slaughter House without a need to go through Expedition mode. This is to address the issue raised in the first review. Generally speaking game have two modes:

- Expedition mode - this is hunt or be hunted experience, where the enemy will try to sneak on you and run into wilderness as soon as you notice his presence.

- Slaughter house - this is survival mode which is similar to Dinosaur Hunt game.

I hope this will improve the experience for players expecting more of a Dinosaur Hunt type of game.

Thank you for your purchase.
